CHERRY BOMB MUZZLE BRAKE SPECS

THREAD | 1/2-28 & 5/8-24 MATERIAL | 17-4 SS LENGTH | 1.6 IN WEIGHT | 1.8 OZ

LAWYER SHIT

⚠ BEFORE USING THIS SILENCER, BE CERTAIN YOU HAVE READ AND UNDERSTAND THE MANUAL AND THE ACCOMPANYING "FINE PRINT" SHEET. FAILURE TO DO SO CAN RESULT IN PROPERTY DAMAGE, SERIOUS INJURY AND/OR DEATH. USE EXTREME CARE AND CAUTION WHEN HANDLING ANY FIREARM.

⚠ THE JUMBO SHRIMP SILENCER IS FOR USE WITH 6.5MM OR SMALLER PROJECTILES.

⚠ ONLY USE FACTORY CERTIFIED SAAMI / C.I.P. AMMUNITION WITH THIS SILENCER.

⚠ BEFORE PERFORMING ANY MAINTENANCE ON YOUR FIREARM, REMOVE THE MAGAZINE FROM YOUR FIREARM. MAKE SURE THE ACTION IS OPEN AND THE FIREARM IS UNLOADED BY PERFORMING A PHYSICAL AND VISUAL INSPECTION OF THE CHAMBER AND MAGAZINE WELL.

⚠ AS WITH ALL FIREARMS CLEANING AND MAINTENANCE, ALWAYS WEAR PROPER PERSONAL PROTECTIVE EQUIPMENT SUCH AS GLOVES AND SAFETY GLASSES.

⚠ DO NOT THREAD THE CHERRY BOMB INTO THE SILENCER BEFORE IT IS PROPERLY INSTALLED ONTO A BARREL. IT WILL GET STUCK.

1. Remove any muzzle device from your host firearm.
2. Clean & degrease the muzzle threads.
3. Apply Rocksett thread lock to the barrel threads.
4. Righty tighty.

⚠ PRO TIP: IF YOUR BARREL IS THREADED 1/2-28, USE THE 1/2-28 CHERRY BOMB. IF IT'S 5/8-24, USE THE 5/8-24 CHERRY BOMB.

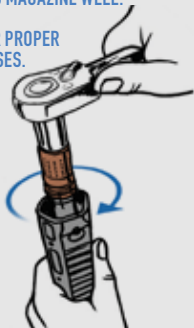

5. Using a 1/2 inch SAE socket, tighten the CHERRY BOMB according to the below specs.

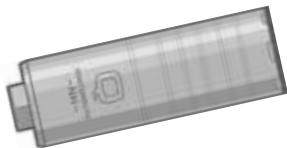

6. Allow Rockett to cure for 24 hours for best results.

⚠ DO NOT USE WASHERS, SHIMS, OR JAM NUTS WHEN INSTALLING THE CHERRY BOMB. THEY CAN CAUSE MISALIGNMENT AND THE CHERRY BOMB DOES NOT REQUIRE TIMING.

CHERRY BOMB INSTALLATION

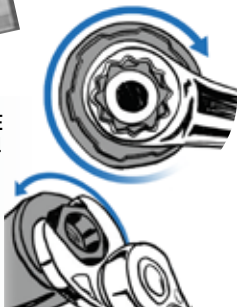

1. Well, that was easy...

1. Righty tighty. The JUMBO SHRIMP silencer features 1 inch SAE wrench flats on the rear. We recommend you use these for install and removal. They also feature 3/4 inch SAE wrench flats on the front for silencers installed under a handguard.

2. Tourque clockwise onto the CHERRY BOMB to 10-15 ft lbs.

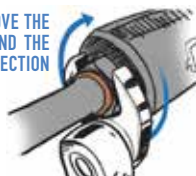

⚠ DO NOT USE THREAD LOCK WHEN INSTALLING A SILENCER TO THE CHERRY BOMB MUZZLE BRAKE.

⚠ BEFORE REMOVING ANY SILENCER FROM ITS HOST FIREARM, REMOVE THE MAGAZINE FROM THE FIREARM, MAKE SURE THE ACTION IS OPEN AND THE FIREARM IS UNLOADED BY PERFORMING A PHYSICAL AND VISUAL INSPECTION OF THE CHAMBER AND MAGAZINE WELL.

⚠ IF YOU JUST FINISHED SHOOTING, I'D WAIT A MINUTE... IT GETS HOT.

1. Left loosey.

⚠ CONTRARY TO WHAT THE INTERNET SAYS, A CENTERFIRE RIFLE SILENCER DOES NOT REQUIRE THE SAME CLEANING AND MAINTENANCE AS A RIMFIRE OR CENTERFIRE PISTOL SILENCER.

⚠ AS WITH ALL FIREARMS CLEANING AND MAINTENANCE, ALWAYS WEAR PROPER PERSONAL PROTECTIVE EQUIPMENT SUCH AS GLOVES AND SAFETY GLASSES.

1. Clean the CHERRY BOMB's taper and threads as well as the corresponding silencer features of any fouling. This will help with alignment of the silencer to the barrel's axis, ensuring optimal performance.

2. If you wish to clean internals of the silencer, we recommend submerging it in a copper solvent or an ultra sonic cleaner.

3. When removed from it's bath, rinse and make sure the silencer is fully drained before use.

⚠ DO NOT USE STEEL TOOLS FOR CLEANING. WE RECOMMEND USING A PIECE OF SOLVENT MOISTENED SCOTCH-BRITE™ OR A BRASS OR NYLON BRUSH.
